To Simon Antony Roberts - Critically Insane Doctors,

It has become apparent that you have no ability to be communicate with at least with the inner west mental health service even through your own education system it is as if you are stone deaf, dumb and blind to Dr. Simon Antony Roberts both secondary consultancy who did a CYP450 test (left below - page 2) to the mental health medicolegal services of Dr. Yolande Lucire (drlucire.com) who ran this saliva test that is important to do every case that is ever even consider prescribed to even to start with mental health and as you can see on the CYP2D6 alleles tested.

Dr. S. A. Roberts not only doesn't have CYP2*D3 + CYP2*D4 + CYP2*D5 + CYP2*D6 + CYP2*D7 + CYP2*D8 where everything you have in the cupboard only works with these normally only CYP2*D6, she'll only has CYP2*D1 + CYP2*D2 not only do you notice what Dr. Roberts also used the secondary buckle swabs for making 4 of them sent to gribbles see that dob: unknown perposefully put that there on a verified as you will see in the 28 copies of the four pages you have repeatably been given that is on file.

All you have produced throughout your entire medical history with Dr. S. A. Roberts is an adverse reaction you have never in the history off applied medical science even in the slightest produced a treatment or solution to your problem Dr. S. A. Roberts is not human, she'll entire family if fake entirely; Dr. Simon Antony Roberts if you check 1/1/1901 on M8747409 has an open Area 51 report that declassified article say the following.

**MOLECULAR BIOLOGY
CYTOCHROME P450 2D6 GENE TEST**

2D6 Genotype: *1/*4

Phenotype interpretation: Intermediate metaboliser

Notes:

CYP 2D6 alleles tested.
CYP 2D6 *1,*2,*3,*4,*5,*6,*7,*8,*9,*10,*17,*41 and major duplications.
Other rare alleles are known but are not detected in this assay.

Activity of Alleles

Active	: *1,*2
Partially Active	: *9,*10,*17,*41
Inactive	: *3,*4,*5,*6,*7,*8

INTERPRETATION

Extensive Metaboliser: Normal phenotypic metabolism. These patients have two active CYP2D6 alleles, or one active and one partially active allele. In general, these patients can receive substrates of the CYP2D6 enzyme using standard dosage procedures.

Intermediate Metaboliser: May require lower than average drug doses for optimal therapeutic response, or may have sub-optimal conversion of drug to active form. These patients have one active and one inactive 2D6 allele, or two partially active alleles.

Poor metaboliser: May be at risk of drug-induced side effects due to diminished drug elimination (eg various antidepressants), or lack of therapeutic response caused by diminished conversion of the drug to active form (eg tamoxifen, codeine, tramadol). These patients have either no active alleles, or only one partially active allele.

Ultra metaboliser: May require higher dosing regimes due to increased rates of drug metabolism. These patients have three or more active

NATA Registered Laboratory All Tests Complete

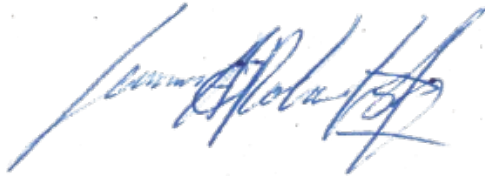

MR ROBERTS, SIMON Specimen Collected : 27/08/08 - 00:00

You must never subderminally inject this passport holder, there must only be if ever intravenously by Simon's own hand! Simple because Dr. S. A. Roberts predates in carbon history your entire civilization from before terraforming Real Earth the very existence of what you are doesn't predate Dr. Simon Antony Roberts or she'll partner Elpiniki Isoif who both on carbon date stamping saliva. Takes the full 50 days passing one test which is - 99999999999999999999 in year count.

Now why are we referring; to your patient Doctor, well simply you can't even do your research at all; if you goto Dr. Simon Anony Roberts facebook www.facebook.com/SimonSxaies Simon's second name is Sadsiticia or unslapped as the era they are going through on their homeworld it normally Stephanie. Goto → About → Education and look to see that Dr. Simon Antony Roberts since you came to door has a Masters since 2008 in IT, Physics + Psychology making she'll as a psychaitrist as well as home turf what called there a Conscious Architect.

Now at some point of your injecting your going to have exploding baby people suffocating and drowning in oxygen environment and so on.

Have a great Day

Dr. Simon A. Roberts / Gc. Simon S. Xaies
